

LED Flexible strip, 5050, 30LEDs/meter, Non-waterproof, WHITE PCB, WARM WHITE, DC12V

Input Voltage: DC12V

Max Length: 16.4feet

Power Consumption: 2.2watt per foot

Lumen Output: 100lumen/foot (+/-5% tolerance)

Color Kelvin temperature: Warm White (3000-3500K)

Protection Grade: No coating, suitable for dry location

Strip width*thickness: 10mmx2.2mm

PCB color: WHITE (with 3M double sided adhesive tape)
